HORIZONS

Understanding the impact of cancer diagnosis and treatment on everyday life

Sixth Questionnaire: 36 month follow-up

Study ID ☐☐/☐☐/B☐☐☐

Thank you for your valuable and continued involvement in this study.

Over 3,300 people across the UK are taking part in HORIZONS.

Your participation will help us to understand how a diagnosis of cancer and its treatment affects a person's everyday life and how this may change over time.

About this questionnaire

- This questionnaire is divided into 7 parts
- It will ask about your general health and wellbeing, managing your health, how you have been feeling, your experience of support and use of health services
- The information you give will remain confidential and will not be seen by your clinical team
- Please return your completed questionnaire in the FREEPOST envelope provided

You can also complete this questionnaire online

- It's easy to use and is laid out like the paper version
- Saves your progress as you go
- Based on your answers, it will show or hide follow-on questions if relevant
- You create your own secure log-in details

To do this or to find out more, please contact us: HORIZONS@soton.ac.uk or 023 8059 6885

Why is this questionnaire so long?

- HORIZONS covers a wide range of topics that people affected by cancer have said matter to them and want to know more about
- Please try to answer all the questions but feel free to skip questions if you don't think they apply to you
- You may also want to take breaks

Are my answers still useful for the study?

- Yes, even if you have not experienced problems during your recovery, or you have moved on from cancer, we still want to know about your experiences
- You may also feel that you have other health conditions that may influence your answers, we consider all aspects of your health and so these answers are still very useful for us to understand your experiences

Why do some questions repeat?

- The questionnaire includes different sets of questions which measure different topics. Sometimes questions will seem similar but unfortunately, we cannot change them as this will affect how we can interpret the results
- You will also notice that some questions are repeated from the last questionnaires, this is important for us to find out what has or has not changed since then

We would like you to think about the people around you that are important in helping you manage your everyday needs while living with your condition. This could include relationships with: family members, friends, neighbours, colleagues, members of hobby and interest groups, health professionals, acquaintances.

People who are important to you can be different in many ways. You may be in contact with them every day, monthly or less often. You may have very close relationships with them or may not know them very well. Some relationships may be important to you because of the help and advice they offer to people you care about.

Please answer each question by circling the answer (1 – 5) which you think is closest to your experiences over the last year. Don't spend too long thinking about each question; your first reaction to each item will probably be most accurate. If there is anything unclear or you would like to comment on a particular question, please feel free to make a note in the space below this table.

		Strongly disagree				Strongly agree
1.	With my health in mind, there are people around me who know how to support me	1	2	3	4	5
2.	I do not ask for practical help from the people around me even when I need it	1	2	3	4	5
3.	There are people around me who fully understand what I can and cannot do	1	2	3	4	5
4.	Most of the people around me are able to see when I need help	1	2	3	4	5
5.	I find it difficult to accept that I may need help from others	1	2	3	4	5
6.	People around me help me to maintain a healthy lifestyle	1	2	3	4	5
7.	In critical situations, I can rely on the people around me for help	1	2	3	4	5
8.	People around me try to find solutions to the problems I am facing	1	2	3	4	5
9.	People around me will work together if they think that I need help	1	2	3	4	5
10.	I don't expect support from people around me because they have problems of their own	1	2	3	4	5
11	I do not ask for emotional help from people around me even when I need it	1	2	3	4	5
12.	People around me are able to adapt when my needs change	1	2	3	4	5

Your Social Network

Many people understand the term 'social network' to be social media. Whilst social media can play an important role in the lives of people with cancer, we are particularly interested in looking at the social relationships that people use to support themselves in their communities.

On the next page:

1. Please list all the people who have played an important role in helping and supporting you to deal with your diagnosis and/or treatment of cancer.

They can be anyone from family members, neighbours, colleagues, to pets and healthcare staff like GPs and nurses.

2. For each person, please let us know a couple of details about them:

(1) their relationship to you (e.g. friend, pet, GP, nurse, etc.)

(2) how often you see them in person, and

(3) approximately how far do they live from you

3. Then, please circle a number between 1 and 3 to indicate the extent they help you with:

A. Information of your illness and illness management – things to do with your long-term condition (e.g. helping you to understand health information, diet, medicines, etc)

B. Practical help with daily tasks (e.g. running your household, etc)

C. Emotional support (your wellbeing, helping you feel good, comforting you when you are worried, etc)

To help us plan better services for people diagnosed with cancer, we are interested in whether or not needs which you may have faced as a result of having cancer have been met.

For every item on the following pages, indicate whether you have needed help with this issue within the last month as a result of having cancer. **Put a circle around the number which best describes whether you have needed help with this in the last month.** There are 5 possible answers to choose from.

No Need	1	**Not applicable** – This was not a problem for me as a result of having cancer
	2	**Satisfied** – I did need help with this, but my need for help was satisfied at the time.
Some Need	3	**Low need** – This item caused me concern or discomfort. I had little need for additional help.
	4	**Moderate need** – This item caused me concern or discomfort. I had some need for additional help.
	5	**High need** – This item caused me concern or discomfort. I had a strong need for additional help.
